

Seal Pro S 62" Laminator

The SEAL 62 Pro Series is the latest generation professional laminator offering industrial performance at an exceptional value. With fully adjustable temperature, speed and pressure settings, the 62 Pro is ideal for the user who requires a highly versatile laminator, fantastic quality finishes and the fastest speed in its' class.

The SEAL 62 Pro Series is capable of running a wider range of media and can generate higher process speeds, which makes this machine ideal for businesses that are looking to build in extra capacity and more versatility. A perfect fit for owners of lower-end manual pressure laminators, looking to upgrade to a professional production machine.

Capable of mounting, laminating and encapsulating prints up to 61" (1550 mm), the SEAL 62 Pro Series can be used with the extensive range of FELLERS laminating films, adhesives and substrates. The SEAL 62 Pro Series features unique design elements such as combi-material shafts and flip-up pull rollers* thereby maximizing versatility and minimizing waste without compromising its user-friendly nature. Real features with real value will lead your finishing department to say "WOW!"

Product Features & Benefits:

- Top-of-the-line for price and value
- One of the only laminators made in the USA -sturdy and well built
- 6 month labor warranty and one year parts warranty
- Laminate at speeds up to 20 linear feet per minute
- 62" size enables lamination of 60" vinyl, ideal for vehicle hoods
- Single heat opens a variety of applications as opposed to cold laminators
- Adjustable settings for increased capacity and versatility
- Manual nip-adjustment for precise operation
- 1 1/2" (38 mm) nip opening for processing a wide range of substrates
- Superior roller technology for better processing of soft substrates
- 14.28 lbf/in (2.5n/mm) line pressure for superior cold lamination
