SuperSucker™ User Guide

BANNER POLE & WINDOW BANNER HOLDER INSTRUCTIONS

[BACK TO INSTRUCTIONS](#)

BANNERS

- Assemble Super Sucker™ by screwing Pole onto threaded stud on Base.
- Slide hemmed and decorated banner over Pole.
- Screw End Cap onto end of Pole.
- Attach Super Sucker™ to clean window with flat bracket facing up by flipping the Lever.
- Use multiple Super Suckers™ for greater impact.

SIGNS

- Only use lightweight sign substrates (4mm corrugated plastic is ideal).
- Decorate sign and punch 3 holes in top of sign 1/2" - 1" from top and at least 1" from edges.
- Install 3 Pear Clips on sign, small end in hole.
- Slide first O Ring onto end of Pole.
- Slide sign with 3 Pear Clips onto Pole, large end over Pole.
- Slide second O Ring onto Pole and position so sign is centered.
- Screw End Cap onto end of Pole.
- Attach Super Sucker™ to clean window with flat bracket facing up by flipping the Lever.

INSIDE MOUNTING

- Attach 2 Super Suckers™ to clean window, flat bracket facing up, by flipping the Lever.
- Make sure Super Suckers™ are level and are spaced wider than the banner.
- Attach banner to Super Suckers™ with bungee cords, rope, etc. Pull firmly but don't over tighten.
- For diagonal mounting use 4 Super Suckers™.

OUTSIDE MOUNTING

- Attach top 2 Super Suckers™ to clean window, flat brackets facing up, by flipping the Levers.
- Make sure Super Suckers™ are level and are spaced wider than the banner. For diagonal mounting raise one Super Sucker™ to achieve desired angle.
- Attach top of banner to Super Suckers™ with bungee cords, rope, webbing, etc. Pull firmly but do not over tighten.
- Attach bottom 2 Super Suckers™ to clean window, flat brackets facing down, by flipping the Levers.
- Attach bottom of banner to Super Suckers™ with bungee cords, rope, webbing, etc. Pull firmly but do not over tighten.

HELPFUL HINTS

- Decorate sign face or banner before attaching to Pole or window. Keep design simple for maximum impact.
- Bungee cords work best on banners with grommets or "D" rings and keep an even tension.
- Super Sucker™ can be mounted to any flat, clean, smooth, non-porous surface.

• Super Sucker™ universal sign and banner holders are designed for winds up to 25 mph. In the event of higher winds remove unit from window and bring inside.

• Super Suckers™ should be removed at night or when the business is closed to minimize vandalism or theft. Attach sign or banner to inside of window for full time exposure.
